Profile

Motivated engineering student with strong interests in DevOps, Cybersecurity, and Software Development. Skilled in Python, Linux, Git, Docker, Kubernetes, and GitHub Actions, with hands-on experience in ransomware detection, file management tools, and automated deployment pipelines. Strong foundation in networks, operating systems, and secure system design. A fast learner with solid analytical skills, eager to contribute to projects focused on automation, reliability, and security.

Skills

Web Technologies

HTML, CSS, Recact.js, Node.js, Express.js

Databases

MongoDB

Devops Tools

Git, Github, Github actions, Jenkin (basics),
Docker, Kubernetes (basics)

Soft Skills

Communication ,Problem solving, Critical thinking
Adaptability,Teamwork,Leadership
Time management

Linux Fundamentals

Tools : Wireshark, Nmap, Nessus

Languages

Python, Java,Javascript

Projects

Duplicate File Remover with Smart UI

01/2025 – 05/2025

- Uses file size filtering and MD5 hashing to accurately identify duplicate files regardless of file name.
- Provides an attractive Tkinter-based GUI with easy folder selection, duplicate listing, and deletion options.
- Helps users reclaim storage space, reduce clutter, and improve system performance with minimal technical effort.

Ransomware Simulation & Detection

09/2024 – 12/2024

- Simulated ransomware behavior by encrypting and decrypting files and demonstrated quarantine and recovery workflows.
- GUI-based detection of suspicious files and user-driven remediation
- Implemented in Python using Tkinter and cryptography libraries; Designed solely for academic and defensive training purposes.

Certificates

- Programming in Java(NPTEL)
- Ethical Hacking (NPTEL)
- Networking Foundations: Networking Basics (Linkedin Learning)
- Google Cyber Security Certificate (Mind Luster)
